

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Michael J. Kealy
DOCKET NO.: 05-25180.001-R-1
PARCEL NO.: 24-02-318-018-0000

The parties of record before the Property Tax Appeal Board are Michael J. Kealy, the appellant, and the Cook County Board of Review.

The subject property consists of a 47-year-old, one-story, single-family dwelling of masonry construction containing 2,092 square feet of living area and situated on an 8,040 square foot parcel. Features of the home include two full bathrooms, a full-finished basement, air-conditioning, two fireplaces and a two-car attached garage. The subject is located in Worth Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of one-story, single-family dwellings of frame or masonry construction located within one mile of the subject. The improvements range in size from 2,162 to 2,341 square feet of living area and range in age from 52 to 55 years. The comparables contain two full bathrooms. Two comparables contain a fireplace as well as a one-car or two and one-half car garage. The improvement assessments range from \$5.66 to \$6.95 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,467
IMPR.: \$ 16,592
TOTAL: \$ 22,059

Subject only to the State multiplier as applicable.

PTAB/rfd5324

The appellant also requested a reduction in the subject's land assessment, however, no analysis was provided in support of this request.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$22,059. The subject's improvement assessment is \$16,592 or \$7.93 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,893 to 2,351 square feet of living area and range in age from 38 to 40 years. The comparables contain two, two and one-half or three full bathrooms, a finished or unfinished basement, a fireplace and a two-car attached garage. The improvement assessments range from \$8.61 to \$10.59 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

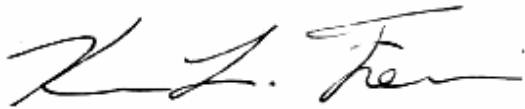

The Board finds the appellant's comparable three and the board of review's comparables one and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$6.95 to \$10.07 per square foot of living area. The subject's per square foot improvement assessment of \$7.93 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or type of construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. The appellant failed to provide an analysis supporting the land assessment request. As a result, the Board also sustains the land assessment assigned to the subject property.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
